## ON THE BORDERLAND.

Thirty Thousand Boomers Ready to Move IN THE GRAND RUSH FOR HOMESTEADS

Three to Five Thousand "Boomers" in Hiding on the Land—Some of the Harshness of Settlers Who Went Overland from Texas.

UTICA, Ohio, April 18.—Fifty thousand people are to-night in one grand bivouac, extending along the entire line of the Cheyenne and Arapahoe reservations, all anxious for the arrival of tomorrow, with its scenes of excitement and its wild race for homes. Six trains have arrived on the Rock Island to-day, and two on the Choctaw, all loaded down with homeseekers and prospectors. Among the latter was James E. Dixon, a member of the English house of lords, who came all the way from Birmingham, England, to see this thing. All day trains of soldiers and horsemen continued to arrive, and a few stragglers are still arriving to-night; but the crowd is about all on the line now. The scene around the camp fires is a strange one.

Men, women and children of all ages and nationalities are sitting about talking and singing or making preparations for tomorrow. On the outskirts of the camp, soldiers are in blankets and feather looking on with curiosity, with here and there a squaw with her papoose on her back.

Here the people are in thousands, and a few feet away is the mysterious line over which none dare cross. Here and there a few blue-coated soldiers may be seen on guard but their task is an easy one, for the people are law-abiding and orderly.

About 10,000 people are on the line in the vicinity of Reno, two-thirds as many at Kingfisher, 2,000 at Honeysey and as many at Dover. About 5,000 are near Cheyenne, and others in blankets and feathers looking on with curiosity, with here and there a squaw with her papoose on her back.

Soldiers are scattered at intervals all along the line and a company of soldiers and a posse of United States marshals surround every country seat. The marshals are scattered all over the reservation and they have orders to confiscate all arms and liquors found on any person. There are possibly from 4,000 to 5,000 "boomers" hiding in the timber and ravines on the land, but most of them have been spotted and will gain nothing by their illegal acts.

The settlers who came overland from Texas to the south line of the reservation have suffered for food. The trip was a long one and the provisions of many gave out, and as no person dare do anything in the unpopulated reservation, except government traders, the people are at the mercy of those scoundrels who robbed them right and left. They were compelled to pay for a tin of coffee, two dollars, a pound for coffee, two dollars for salt pork and everything else in proportion and many a home-seeker was compelled to spend his little all to keep his family alive.

Believe Reform and Retrenchment Should Begin at Home.

WASHINGTON, April 19.—Congressman Doan, of Ohio, is credited with an intention to launch a reform and retrenchment bill aimed at the members of congress themselves. The bill will provide that members shall upon their arrival at the capitol present to the committee on mileage a certified copy of their expenses in reaching the capitol, and that this amount and no more shall be allowed them as their mileage. "This congress," says Mr. Doan, "has by a bill it has passed reduced or sought to reduce the price of sleep and has cut the price of food down twelve cents a pound. It has also by a bill sought to reduce the cost of travel, and now I want to still further lessen the burdens of the people by going a step further and removing from them the excessive charges now collected in the shape of mileage. In the anxiety for economy congress only allows army officers four cents a mile for transportation, and I want it to be equally as economical in their own case. If four cents is enough for an army officer it ought to be for a member of congress who is also a public servant. It is time for us to return that forty cents we do not use and thus relieve a 'depleted treasury'."

Worthy of Death.

ANNISTON, Ala., April 19.—George Humphries, a negro, entered the house of Prof. D. E. Moses, Sunday night, and after chloroforming his sleeping daughter, outraged her. He was seen escaping through a window. Officers arrested him yesterday and threats of lynching were made. The child is in a critical condition.

"For several years," says John Park of Beaver Creek, Minn., "during the winter, I have been troubled with a painful swelling of the feet, which physicians claimed was rheumatic gout. I was treated by some of our best physicians and obtained but little, if any relief, and used many so-called 'cures,' without benefit. During the winter of 1887, when my feet were so swollen that I could not wear my boots, I commenced using Chamberlain's Pain Balm. The first application reduced the swelling and inflammation, and the next day the feet were completely relieved, and that I discontinued my 'cures' and was able to get around all right and was 'cured.' 50 cent bottles for sale by J. V. Kneale."

## TELEGRAPHIC NOTES.

—Secretary Tracy is confined to his residence with a bronchial trouble.

—Reports from the Crimea state that Russia is fortifying Sebastopol in a most formidable manner.

—It is not expected that workmen's demonstrations will be allowed anywhere in Germany on May day.

—Richard Carroll, the comedian, and John Bathurst, recently divorced, were re-married in Washington yesterday. The informant was at Arlington.

—The germs of small-pox still seem to be rampant in New York city, six new cases being posted at the bureau of contagious diseases yesterday.

—The body of a man, who proved to be Geo. S. McCullough, of the St. Louis water works, was found in the Mississippi river.

—A regularly organized preacher from Ohio is confined in the Washington city workhouse on a charge of vagrancy. His offense was preaching the gospel on the public highways.

—Charles H. Hatch, 31 years old, a New York painter, committed suicide yesterday morning by shooting in the head. Dependence is supposed to have been the cause of the deed.

—The non-unitary movement in England, about 10,000 in number, resumed work to-day. The men had nothing to do with the strike, but were forced out of employment by the strike.

—The Italian socialist declare that they will have more of their strength in the elections of the various Italian cities are anxious over the outlook, and are taking precautions to avoid disturbances.

—The secret magnet which is said to be attracting the French in their continued preparations for the invasion of England, is said to be of two successive orders of kings, thought to amount to \$100,000,000.

—The leaders expect that 2,000,000 socialists will take part in the procession in the different towns of France on May day. The authorities are taking precautions to suppress them should they occur.

—Northern France is being visited by the sharp winter that has turned England back to midwinter. Frost was chilly, and it is feared that there will be a serious outbreak of the exposure of women in the new fashions and light attire of that day.

—The treasurer of the Wm. E. Woodruff, ex-state treasurer of Arkansas, charged with embezzling state funds and converting them to his own use, was arrested yesterday.

—The jury in the first trial, which occurred last November, failing to agree.

—Prince Michael, of the "New and Latter House of Israel," was in the Detroit (Mich.) police court for a charge of drunkenness yesterday. After some discussion the defendant was fined \$100 and bail was fixed at \$1,000. It was said that Prince Michael was taken back to jail.

THE MODUS VIVENDI

That Lord Salisbury Said He Would Not Agree to Signed by Minister Pancoff.

WASHINGTON, April 19.—An agreement between the United States and Great Britain for a modus vivendi in relation to the fur seal fisheries in Behring sea, for the present, was signed yesterday by the British minister, representing the government of her Britannic majesty, and by James G. Blaine, secretary of state, representing the government of the United States. This important agreement was signed at 11 o'clock at the residence of Secretary Blaine, who, owing to the inclement weather, did not go to the department. He at once took it over to the executive mansion and laid it before the president, who in the afternoon transmitted it to the senate for its action.

The modus is in the form of a supplemental convention to the treaty of arbitration recently negotiated and ratified. The modus vivendi states that both governments will prohibit during the sealing season the killing of seal in that part of the Behring sea lying eastward of the line of demarcation, described in article I of the treaty of 1897, between the United States and Russia, and each government will enforce its prohibition to an observance of this agreement.

The United States, it is understood, is allowed to kill for the subsistence of the natives the seal of the Behring sea, and St. George's seals, the same restriction as was made last year, and the United States binds itself to observe this prohibition.

Under this modus, either the United States or Great Britain, or citizens of either country, offending against this agreement may be seized by either of the high contracting parties, but as the modus is a treaty, it may be handled over to the authorities of the nation to which they belong, who shall have jurisdiction to try the offenders and impose the penalties for the same.

It is assumed that the document is a renewal of the agreement of 1891, with the addition of a clause providing for the settlement of damages sustained by the Canadian sealers through the interruption of their business in case the arbitration goes against the United States.

Under this modus, owners of Canadian sealing vessels have already begun to file their claims with a commission appointed to receive and present them. But Gen. Foster, the agent of the United States, who is preparing the case for the government, and Hon. E. J. Phelps, counsel, are leaving by point uncovered, and will be fully prepared to meet the claims on this score in the event that they shall ever be pressed for payment.

The Van Loan Murder Trial Resumed.

OTTAWA, O., April 19.—The Van Loan murder trial was resumed yesterday. The defendant, having arranged matters with his attorneys so that they again took up the defense. Van Loan's father-in-law testified yesterday morning that he was present with him, two days after the Columbus Grove bank robbery, with a big roll of bills, saying: "Look there, pa; who says it can't make money?"

Van Loan was very unruly, and had to be taken into the court room by force.

## BARNUM SHOW COMING.

An Advance Representative of the Barnum & Bailey Circus in Town.

Mr. Hugh Coyte, special press representative of Barnum & Bailey's greatest show on earth, arrived in the city last evening, and advertising car No. 1 will be here to-day and to-morrow to apprise the people of the fact that his company will pitch their tents in Decatur soon.

Being an old journalist, of course Mr. Coyte first pays his respects to the newspaper fraternity. A week ago he left Madison Square Garden, New York, where the great institution is playing a continuous engagement of five weeks.

Immense as the Madison Square edifice is in capacity it holds ten thousand or thereabouts—if it were twice as large it would be impossible to accommodate the vast throngs of people who try to attend the daily afternoon and evening performances.

One of the great attractions this season is the spectacle of "Columbus, and the Discovery of America," which is bewildering and astounding in its dazzling splendor.

The tents used by the show are much larger than any used by other shows, and that grand historical dramatic and terpsichorean spectacle, Imre Kiraly's "Columbus and the Discovery of America," requires a tent space of enormous proportions. This attraction alone requires an outlay of fully half a million dollars, for which the scenery took \$750,000, the costumes and wardrobe \$350,000, the electric lights, triumphal car, armor, weapons, devices, emblems, and other properties of ancient design, \$500,000 more. An immense sum has been spent in searching in foreign countries for the historical material and data upon which the spectacle is constructed, and in new and elegant printing.

The date for this show's appearance in Decatur has not yet been definitely settled, but it will be some time about June 15. The New York engagement closes on April 23, and one of a week's duration will then be commenced in Decatur, after which the concern heads for the West.

"How many tented shows are now traveling in this country?" was asked Mr. Coyte.

"It is hard to answer that question," he said; "there must be fifty at least. They are springing into existence every year, but as they are never heard of in the larger cities, the metropolitan centers such as New York, Philadelphia, Boston, Baltimore, Washington, Chicago, St. Louis, etc., are hard to count. In traveling we come across their bills in the small towns occasionally, but very rarely do they strike us in the larger cities. In the metropolitan centers, however, they are everywhere, as their business is principally done in the small towns and villages where the population is small, and the show must be a large resident population and good thickly settled surrounding country to draw from. Of course good weather is an essential element."

Died on the Train.

On Sunday morning a gentleman whose name could not be ascertained boarded Washburn train No. 43, which passes through the city at 9 a. m., Decatur. He was a transient passenger, and he and W. railroad, and his ticket read to Golden, Ill., a small station on the Keokuk branch of the Washburn. After the train left Decatur, the gentleman, who was named Kaps, missed him, and as the train was near Vandalia he looked into the water-closet and to his surprise found the gentleman sitting there. The coroner, who was called, found the man dead. The coroner, who was called, found the man dead. The coroner, who was called, found the man dead.

Robson, the Star Comedian.

Smart Robson, the star comedian of the first magnitude in America, the peer of Booth in his line of work, will appear tonight at the Grand in "The Henrietta," supported by a strong company.

Mr. Robson is greeted by a crowded house. Decatur playgoers always recognize star attractions in a substantial manner, and by so doing Manager Himes is enabled to give his patrons the best of the best. We are always glad to welcome Robson, and Russell and Booth and they will continue to visit us if we give them creditable welcome. Let everybody go to-night and see Robson at Bertie, the Lamb.

MARRIED.

At the U. S. Postoffice, 105 North Broadway, Monday, April 18, 1892, at 7:40 p. m., by Rev. J. King, Mr. Edward Moran and Miss Josephine Bots of Decatur.

Chicago Grain Market.

## FIFTY-SECOND CONGRESS.

(First Session.)

WASHINGTON, April 18.—The vice-president stated that he had received a communication from Mr. James S. Young, late chief executive clerk, with a request that it be laid before the senate and be accordingly presented, and it will lie on the table.

Mr. Vance, from the committee on public lands, reported adversely the proposal to construct a shelter over the eastern end of the capitol for the next presidential inauguration.

Mr. Tamm presented resolutions of the St. Louis merchants' association protesting against the United States and Brazilian Steamship Company to land at New York, which was shipped from Brazil, the discrimination being a blow aimed at the commerce of the west and south, and he also offered a bill to remedy the evil.

Mr. Cockrell supplemented these statements by presenting resolutions of the Wholesale Grocers' association of St. Louis to the same effect. The bill and all the resolutions bearing on the subject were referred to the committee on commerce.

The senate, on motion of Mr. Peffer, passed a resolution requesting the secretary of state to obtain from our consuls abroad, information as to the application of electricity to the propagation of farm machinery and to the propagation and growth of plants. He explained that it was understood that electricity had been applied to the propagation of farm machinery and to the propagation of plants, and there was a desire on the part of the farmers to obtain definite information on the subject.

Mr. Sherman gave notice to to-morrow, or as soon thereafter as possible, he would call the attention of the senate to the Chinese exclusion bill, for the reason that it must be passed within twenty days if it passed at all.

The senate then proceeded to the consideration of bills on the calendar.

At 1:30 the senate, on motion of Mr. Sherman, went into executive session.

At 3 p. m. the senate emerged from secret session and took up the bill to amend the circuit court of appeals, passed on Thursday and reconsidered on motion of Mr. Call.

A slight amendment was made to the bill so as to give the right of appeal in all cases involving the construction of an act of congress, and this amendment the bill was passed.

The bill increasing the number of judges of the court of claims from five to seven was passed on motion of Mr. Call.

Mr. Sherman gave notice to to-morrow, or as soon thereafter as possible, he would call the attention of the senate to the Chinese exclusion bill, for the reason that it must be passed within twenty days if it passed at all.

## EASTER MANEUVERS.

John Bull's Volunteer Show Set Down as a Failure.

KROCKED OUT BY THE WEATHER.

Still Learning How to Repel an Improbable Invasion—An Enormous Waste of Powder—Got Mad and Fought in Earnest.

LONDON, April 19.—Foreign experts who were detailed by their respective governments to watch the Easter operations of the volunteer forces are disgusted at the way the affair has turned out. Of course the British war authorities cannot justly be blamed for the delays and demoralization due to the unseasonable weather, though it is claimed by some severe critics that this emergency presented just such a chance as is sure to happen in actual warfare, and the German experts do not hesitate to boast that the young war lord who is at the head of affairs in their country would have nothing better than to have engaged in a struggle of science against nature on such an occasion.

But conversation with several experts reveals a prevalent opinion that the enormous waste of powder, the incapability of devising any maneuvers for volunteers except such as are based upon the idea of an enemy's attempted landing at Dover or Portsmouth, and the obstinate firing was kept up at impossible ranges or long after the supposition enemy had been outfought or decimated. The enemy which was supposed to have effected a landing near Dover, and to have reconnoitered in force, succeeded (as per previous arrangement) in defeating the defenders of St. Margaret's and capturing that position. The bulk of the volunteer regiments, both invaders and defenders, were stiffened by regular troops.

The mounted infantry and cyclists, which branches were much more numerous than ever before, proved very useful, but in the manner in which the squadrons of the Inns-of-Court regiment, chiefly composed of London lawyers' clerks, charged right in the face of a powerful battery, was enough to make Von Moltke turn in his grave. A body of kilted Scotch, with a good many Londoners among them, led the final charge upon St. Margaret's. The main body of the defenders properly retreated, but the Finishing regiment, excited, took the thing as real, and refused to retire. They lost their temper and some of them engaged in fistfights with the invaders.

The umpires of the day were seventeen officers, distinguished by a white badge on the right arm. They will make their report to the commander-in-chief at the close of the maneuvers.

The operations of the supplementary forces advancing from Maidstone and Chatham were conducted under great difficulties. A series of snow storms, showers and hail storms causing much suffering among the men. The tactics of these bodies were badly muddled in consequence. Altogether, the Easter maneuvers of 1892 must be set down as a failure.

THE LOUISIANA ELECTION.

An Acrimonious Campaign Closed and the Vote in Progress To-Day.

NEW ORLEANS, April 19.—The state campaign closed last night, and today the different factions are busily ensuring their strength at the polls. The election is held for governor and all state officers, members of the legislature, judicial, parish and municipal officials. There are five state tickets in the field, two democratic and two republican, and the people's party. The anti-lottery or regular democratic ticket is headed by Murphy J. Foster, while Justice S. D. McEnery is the candidate for governor. Bets were offered last night with odds of 5 to 1 on Foster, with few takers.

In New Orleans there are two municipal tickets in the field, one headed by Jos. A. Shalespeare, the present mayor and the other by John Fitzpatrick. The lines are closely drawn between these two factions, and the majority for either of them will be small.

The campaign has been marked by intense animosity and there are grave apprehensions that to-day's contest will result in bloodshed.

"Tommy, why are you so naughty?" asked his papa. "I don't like 'em 'cause I'm me," said Tommy.

THE CHILDREN.

More than half of the human race die before they reach the age of five years. This is a fearful record and yet this statement is borne out by the facts in every civilized nation under the sun.

Among savage nations the death rate is of course much larger. More than half the children die before they reach the age of five years. Some children are predisposed to this disease much more than others. The difficulty in treating it heretofore has been that most cough remedies contain opium and a child can stand but little at a time. One drop of laudanum has been known to kill an infant. This is the great and conspicuous merit of Reid's German Cough and Kinney Cure. It contains no opium nor any other poison, and it can be taken in extreme cases as often as every two minutes until relief is obtained. This makes it an invaluable remedy for the family. For sale by all druggists.

SYLVAN REMEDY CO., Peoria, Ill.

NOTE: HERE—On May 1st a horse of his room, two manila and grades, on North Broadway street, inquire at Grinnell & Co.'s hardware store.

Mrs. W. J. Brown

New and elegant styles Gingham, Prints, Foul du Nord, Penanga, Bedford

Novelty, and other new wash fabrics, on sale now at Linn & Scroggs D. & C. Co.

Thursday night at the meeting of the Sons of Veterans' camp, a new commander will be elected to succeed W. J. McCalland, who disappeared mysteriously some months ago.

Memorial services have been issued to Joseph L. Berry and Charlotte C. Smith, both of Decatur and to William S. Roberg, of Newton, and Miss Emma Burkholder, of Olney, Ill.

This afternoon a reception in honor of Bishop Seymour is in progress at the home of L. Barrows and family on West North street. The bishop and all of the visiting clergymen dined at the Barrows residence today.

Many people who pride themselves on their blue blood would be far happier with pure blood; but, while we cannot choose our ancestors, fortunately, by the use of Ayer's Sarsaparilla, we can transmit pure blood to our posterity.

This barbers' union have not yet recovered their charter. So far nothing has been decided as to the sale of prices which they will adopt nor whether they will ask their business to close their shops on Sunday mornings.

Tux Turnverein of Springfield are making preparations to attend the turn-out at Decatur June 11, 12 and 13. A class of ten of the best turners under the direction of Instructor Weidner will compete for a number of prizes and it is safe to say that they will win.

To-day there was filed for record with Recorder McClellan a government warrant to 100 acres in land in 1, 18, 1 east, south to John Decker, private in Captain Smith's company, First Regiment of Pennsylvania volunteers, dated March 1, 1861, signed by President Millard Fillmore.

Ten German Aid Society gave their regular annual dance last night at Turner's Hall and a grand time was enjoyed by all. There were nearly one hundred people present and the Maxwell Orchestra furnished music for the dancers.

This tenth annual commencement of the Illinois division, Sons of Veterans, will be held in Bushnell, beginning June 20, and continuing four or five days. Extensive arrangements are being made by the local committee at Bushnell for the entertainment, and it promises to be one of the most successful ever held. A number of prizes will be awarded competing military companies.

DEDICATION SERVICES.

THE BEAUTIFUL ST. JOHN'S CHURCH CONSECRATED TO THE LORD.

Sermon by Rev. W. H. Moore, of Chicago--Description of the Edifice.

Sunday the first service was held in the new St. John's Episcopal church at the northeast corner of Eldorado and Church streets, and today marked another important epoch in the history of the society which includes among its members many representative families and wealthy citizens of the community.

This is the day of the formal dedication of the edifice which has been constructed with the greatest regard for artistic and ecclesiastical form. The beauty and finish of the church command the admiration of all beholders. It is a model Episcopal church.

THE DEDICATION.

The church was crowded at 10:30 a. m. to-day when the dedication exercises were held. The Right Reverend Bishop Seymour announced in the beginning of the services that the services this morning were preparatory to the dedicatory services to-night, when this house would be dedicated to Him whose blessings we invoke upon it. To this service you have come and we ask that you join and aid us in the preparatory services. In the ritualistic services preceding the sermon Rev. D. N. Cunningham of Springfield, Rev. Mr. Smith, of Lincoln, and Rev. Mr. Oram, of Paris, participated.

Rev. W. H. Moore delivered the sermon from Joshua 4th chapter and 24th verse: "What mean these stones?" Mr. Moore was a former rector of St. John's church. He had seen it when it was weak and struggling, and he saw it now strong and confident. This fact especially struck Mr. Moore for the duty he had formed. During the sermon he made some very beautiful references to the early workers in the church who had passed from earth to eternity. This probably gave rise to the declaration with which he opened his discourse: "This is an occasion of the deepest interest--the consummation of many hopes--the answer of many prayers." The speaker reasoned that the church

was not built to gratify social pride, nor that aesthetic tastes might be satisfied. When the children of the people came up to Gilead and inquired what the stones meant they were reminded that God had been with the fathers, and when we inquire concerning this church what mean these stones the answer will be that it is dedicated to christian unity. We believe in christian unity, in the conversion of the world to the truth as it is in Jesus.

Speaking of the office of the church the speaker said that unless there is another dispensation then indeed must the church of the present be the church of the past. While we do not claim it after the precise pattern given in the New Testament we do claim that it did not have its origin in the time of Henry VIII, if so it ought to perish, but that its origin was in the birth, the death and the resurrection of Jesus Christ. Our sinful divisions have pained the arm that was stretched out to help us. What do we mean by worship? It is not merely prayer and adoration of sacrifice. It is not receiving from God, but giving to God. We offer ourselves a sacrifice to Him. Worship calls away from self. We bless God for the many blessed things we have received from Him. He gives to the place of honor because we place before it the sacrifices made by Christ. The Eucharist ought to be chief in every service, but it is not. We have been disobedient in putting other things before it, and through our unbelief we forget that "If Christ be lifted up he will draw all men unto him." When we look upon these stones we shall remember Lockwood and Fuller and all who have labored and labored have contributed to this result. Presently we shall offer that sacrifice by which they lived to remember the new covenant. Referring again to the building, he said: "These stones are piled here to witness to the message delivered to the saint. They may crumble back to their original elements, but the faith that unites us to witness will never perish." "The church" is the communion of the faithful. It will not, it cannot change its faith, its hope, its whims and fads of the present day. Contact with the world often brought the Hebrews into trouble, but the stones piled up at Gilead were an ever reminder of the faith that God had honored. We are not here to glory over the achievements of men in bringing about the erection of this church, but it is our duty to place to say that he who is ministered to St. John's church is largely due this grand consummation. We will remember the remark made by him when he was about to take charge of this church, "If the people will respond to earnest work they shall have earnest work." This building is the response on the part of the church.

Following the sermon the Holy Communion was celebrated, being administered by Bishop Seymour, assisted by Dr. Dresser of Champaign, and Dr. Taylor of Springfield.

Sermon and confirmation services to-night by Bishop Seymour.

The visiting clergymen and former residents of Decatur were entertained as follows: Rt. Rev. Bishop Seymour of Springfield, by Mr. and Mrs. W. J. Quinn; Rev. W. H. Moore and wife of Chicago, by Mrs. Koeller; Mrs. G. A. Hard of Chicago, by Mrs. M. M. Goodwin; Dr. Taylor of Springfield, by R. K. Durfee and family; Rev. Mr. Smith of Lincoln, by A. A. Summers and family; Rev. Dr. Dresser of Champaign and Rev. Henry N. Cunningham, by Mr. and Mrs.

J. F. Roroh; General and Mrs. R. J. Ogilby of Elkhart, Rev. D. Hall of Davenport, and Mrs. Slaughter of Springfield, by L. Barrows and family; Rev. Barrows of Arcola, by Mr. and Mrs. R. W. Chilson.

THE NEW CHURCH.

Description of the Beautiful Edifice--The Memorial Windows.

Those who have seen this beautiful church know in a general way what it is. Those who have not visited it, as well as those who have done so, will be interested in perusing the following full description of the edifice which was dictated by Rector Goodwin:

The general character of the building is closely allied to the early English period of Gothic architecture of about the thirteenth century, and in its conception and in the material used the general feeling of the date was keenly and noticeably reproduced. The situation of the lot and the requirements of the parish made it possible to follow the traditional lines in the plan, and the exterior of the church, the ambulatory, the south porch, the baptistery at the church entrance and the high clear story with its arched supports.

The church measures over all 120 feet in length and 50 feet in width, not including the tower, in which is the main entrance. In front two small porches flank the baptistery, which forms a circular porch directly under the great west window.

The exterior is of variegated old red sandstone, some of which came from Wisconsin and some from Iowa.

The roof is of Virginia black slate. The handsomely arched windows are filled with beautiful stained glass. The chimney stack is covered with stone similar to the rest of the church. On the south side a stone porch, with heavy stone balustrade, all the porch entrances have pressed brick floors.

The tower is 65 feet high in total, with a parapet of 8 feet high and a blue roof, making the total height about 100 feet, surmounted by a copper cross 8 feet high.

The nave is 41 feet high, with richly paneled walls and ceiling supported by ornamental trusses of old red oak.

The nave proper is 40 feet wide, and is lighted by windows, under and over, there is one broad central aisle and two side aisles. There are three entrances in front, the main entrance being from the tower, and two porch entrances on the north and south sides of the baptistery. The floor of the church is of hard wood, colored to resemble the floor of the nave, and forming a Greek cross design under the foot itself.

The choir is large and commodious, the sanctuary being placed in shape. It is lighted by windows, under and over, in tone, the cross being traced in jewels in each window. The treatment of the choir is in the treatment of the stained glass. The choir scheme, the arched columns, and the face of the choir itself has been so arranged in color as to form a unity with the nave. Bands of ornament are so placed on the side walls as to lead the eye step by step to the angle ended sanctuaries. Here the entire choir plan is taken up by an elaborately carved reredos, retable and altar, the latter resting on a raised base of three steps.

The choir is lighted by windows, under and over, in tone, the cross being traced in jewels in each window. The treatment of the choir is in the treatment of the stained glass. The choir scheme, the arched columns, and the face of the choir itself has been so arranged in color as to form a unity with the nave. Bands of ornament are so placed on the side walls as to lead the eye step by step to the angle ended sanctuaries. Here the entire choir plan is taken up by an elaborately carved reredos, retable and altar, the latter resting on a raised base of three steps.

The choir is lighted by windows, under and over, in tone, the cross being traced in jewels in each window. The treatment of the choir is in the treatment of the stained glass. The choir scheme, the arched columns, and the face of the choir itself has been so arranged in color as to form a unity with the nave. Bands of ornament are so placed on the side walls as to lead the eye step by step to the angle ended sanctuaries. Here the entire choir plan is taken up by an elaborately carved reredos, retable and altar, the latter resting on a raised base of three steps.

1892-1893.

In Memoriam of William M. Boyd, Vestryman of this Parish.

To the Glory of God In Loving Memory of Flora Rose Bradford.

The intention is to have the series of memorial windows completed as friends from time
